How to Output Information in PDF and Excel

Excel (when you have already run the report in HTML format)

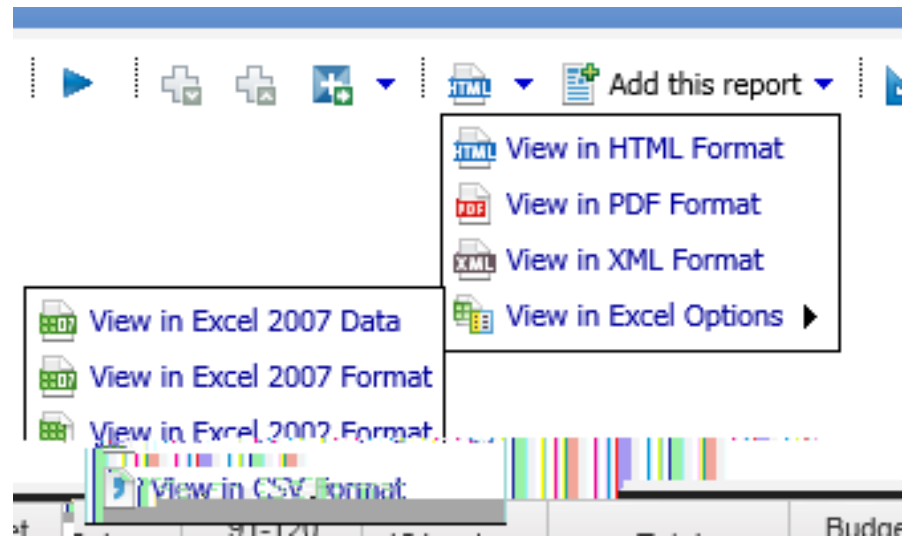

1. If you have already run the report in HTML format, click the drop down arrow to the right of the HTML icon to display the menu.

2. When you mouse over the View in Excel Options format another popup will appear. You will choose View in Excel 2007 Format.

How to Output Information in PDF and Excel

3. A popup may appear to indicate that report is running.

4. When the report finishes creating the spreadsheet, a message appears.

You can choose to Open with Microsoft Excel, or Save File.

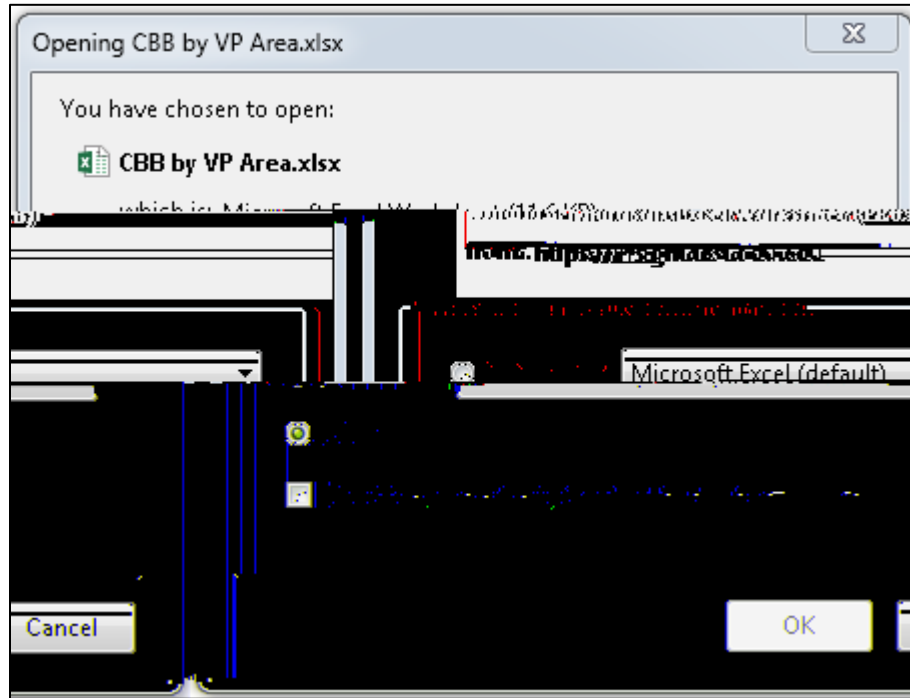

Clicking Open with Microsoft Excel and clicking the OK button will open the report in Microsoft Excel.

Clicking the Save File button will save the Excel spreadsheet to your download area.

You will not get a notification it has finished downloading.

If the report does not appear in Microsoft Excel, refer to the Help Documents and Links file [How to Modify Internet Explorer Options](#) to allow Excel formatted output located in the Help > ODU Documentation > How To's folder.
