## Installing ArcGIS Pro with Named User License

Please contact the ITS Helpdesk itshelp@odu.edu to get help regarding download and installation of the software. For authorization help, see section D below.

- A. Before you install ArcGIS Pro
- 1. Check the system requirements <u>here</u> for ArcGIS Pro to make sure your computer has the hardware and software required. You can also use the automated web tool to check your computer capability to run ArcGIS Pro <u>here</u>
- 2. If you have the latest version and most updated Windows, you can skip this step. For an older version of Windows, you might have to install the Microsoft .NET Framework available here.

9. Click Next when you are ready to proceed.

10. Review the license agreement and accept it if you agree. Click Next to continue with the installation.
